

## MIDDLESEX-LONDON PARAMEDIC SERVICE LOGISTICS STANDARD OPERATING PROCEDURES

### Car Wash Clean / Deep Clean

The car wash will be deep cleaned every Sunday. The procedure is as follows:

1. Turn power switch to off position.
2. Sweep up all debris off wash bay floor
3. Put out wet floor signs
4. Put on PPE
  - Safety glasses/face shield
5. Get pressure washer and check fluids before starting.
6. Start at the east side of the wash bay and work your way in to the bay towards the door
  - wash floor
  - wash walls
  - spray scrubbing brushes to ensure no debris is locked inside
  - use hard bristled brush and cleaner to scrub stains off the walls and floor
7. Squeegee access water off floor and walls.
8. Switch power on
9. Initial car wash tracker when completed.

If car wash floor or walls are getting dirty throughout the week please take some to do an additional cleaning of the wash bay.
